VIATEC: UK Compactacone

An ideal hazard marker for all road users from emergency services to highway contractors, the Compactacone illuminated collapsible safety cone offers protection for roadside emergencies. The cone is deployed in seconds, and collapsible down to a 5cm tall base to allow for easy storage and transport. Features of the Compactacone include:

- **Highly Visible** Compactacones feature an internal LED light which is visible from over 1000 metres and has three phases - on, off or intermittent flashing. The LED light is waterproof and has more than 300 hours run time powered by two AAA batteries (supplied).
- **Portable** The Compactacones, unique telescopic fold-away technology means that they use minimal vehicle space and can easily be stored under the seat or in the boot. At 2kg, the Compactacone is approximately a third of the weight of a traditional cone and furthermore, around a tenth of the space. A low centre of gravity ensures stability. Compactacones are supplied in a zip-lock PVC case, which makes for easy handling and clean vehicle interior
