## VIATEC: Vioflex Passive Sign System

Adapted from Viatec's proven recoverable marker post system, Vioflex gives way safely in the event of an impact and then recovers. The socket system is set into a trench and back filled with concrete and the individual uprights are then installed and lock automatically into place. Should any damage occur, the

individual pieces can be replaced quickly and cost effectively? The system is available in all standard TSRGD signs and can be adapted to suit different requirements, such as keep left arrows and countdown signs.
